NO. 39.

FRANCE IN EARNEST

Determined to Compel Castró to Act in Better Faith

PATIENCE IS FINALLY EXHAUSTED

Venezuelan Dictator Must Disavow Offensive Attitude Toward French Charge d'Affaires at Caracas or Negotiations Will Be Broken Off.

Paris, By Cable.—The offensive attitude of Venezuela toward M. Taigny, the French charge d'affaires at Caracas, has aroused indignation in official quarters here. Although the Ministry has not yet taken definite action, it is said in the highest quarters that Premier Rouvier undoubtedly will demand that Venezuela disavow the offensive action and adopt a course conformable with the usual courtesies of diplomatic intercourse. The Venezuelan authorities are now seeking to show that their action was directed against M. Taigny personally, and not against the French government, but officials here do not accept the distinction between M. Taigny's personal and official capacity.

The semi-official Temps Friday printed a leading article reflecting the official sentiment on the subject. It said that M. Taigny has been ordered to insist on Venezuela's withdrawing his positive refusal to deal with him. If the withdrawal is made and President Castro makes an apology, then the negotiations will continue. If Venezuela does not accede to the demand, the negotiations will be broken off. The article also mentioned that the French government is considering the possibility of a joint naval demonstration, similar to that which Great Britain, Germany and Italy took part in. The authorities here say that exchanges will occur at Washington relative to the mutual interest involved in the pending controversies.

M. Jussierand, the French ambassador to the United States, will sail for New York.

Slain in Political Clash.

Havana, By Cable.—Official dispatches received Friday afternoon from Cienfuegos announced the killing of Congressman Enrique Villuendas, leader of the Liberal party and the most able orator of the lower house, and the chief of police of Cienfuegos, during a conflict between the two political parties, the Liberals and the Moderates. The government authorities say the police had information that within the hotel in which Villuendas resided a quantity of arms had been deposited, and they went to the hotel to investigate the matter. As the police ascended the stairs they were met by a party of Liberals, who opened on them, killing Chief of Police Villuendas. The police returned the fire, killing Villuendas and wounding several others. Intense excitement prevailed at Cienfuegos and Havana. The government authorities fear the result which the affair may have upon the election of members of the election boards, which will be held Saturday. As the news spread throughout Havana the Liberals and Moderates are rapidly gathering in their respective clubs, and it is feared that unless the leaders give wise counsel a clash may result. A dispatch from Cienfuegos says that about six persons were killed and 25 wounded during the conflict.

Out For Governor of Alabama.

Montgomery, Ala., Special.—Dr. R. M. Cunningham, of Ensley, Ala., Lieutenant Governor of Alabama, announced his candidacy for Governor of the State in a letter which the Advertiser will print. The Lieutenant Governor, in his communication, shows his position on all the public questions now being agitated in State politics, and points to his own political record.

Ex-Governor O'Farrell Dead.

Richmond, Special.—Former Governor Charles T. O'Farrell, of Virginia, died in this city at 10 o'clock Friday morning from nervous prostration. He had been in failing health for about a year, but prior to his death had been confined to his bed for only a month, the last three days of which he was unconscious. Owing to paralysis of the throat he was unable to take nourishment. Governor O'Farrell served in the Confederate army, rising from the rank of private to that of colonel and was for six terms Representative in Congress from the seventh Virginia district. He was 65 years old.

Mikasa's Commander Attempts Suicide.

Tokio, By Cable.—A special to The Jiji from Sasebo says that Captain Iuchi, commander of the ill-fated Mikasa, made an attempt to commit suicide after an address to the survivors of the warship, by jumping from a window. He was severely wounded about the head, and is now reported to be in a critical condition in the Sasebo naval hospital.

Waiting For Lower Cotton.

Fall River, Mass., Special.—Sales in the print cloth market for the week will amount to about 75,000 pieces. The demand continues quiet for all classes of goods. The future course of the market will depend largely on the new cotton crop. Manufacturers are believers in lower prices for the raw material, and are only purchasing enough to cover necessities. Samples of the new crop are being shown and are said to be of good quality.

YELLOW JACK GAINS SLOWLY

Progress of the Yellow Fever From Day to Day.

New Orleans, Special.—Official report to 6 p. m.: New cases, 46; total to date, 2,808. Deaths, 6; total, 365. New foci, 11. Cases under treatment, 310; discharged, 2,133.

Saturday ended the tenth week of the fight against yellow fever in New Orleans with a record of cases and deaths for the day higher than expected. While there have been a considerable number of new foci in the past week, an examination of the maps in the office of the Marine Hospital officer does not disclose any extensive spread of the disease. Many of them represent merely the crossing by the disease from one side of a street to the other. As the cases are promptly reported, however, the inspectors are able to tag them immediately and take due precautions to prevent a spread of the infection.

If the present rate of progress is kept up, the State board of health believes that yellow fever in the country parishes will disappear almost as soon as in New Orleans.

Lake Providence, which was a hotbed of fever two weeks ago, is rapidly driving out the disease. For the fourth day, all the new cases at Tallulah are negroes. Seventeen cases are under treatment in the Barataria district.

In central Louisiana picking and moving of cotton is somewhat handicapped for the want of sufficient labor. Owing to fumigation requirements, ginners are having some trouble in getting cars.

Work was resumed Saturday on the levee front. The settlement decided on by Adam Loch, the arbitrator, was accepted by both sides and there will be no more cotton labor trouble during the present season. The country reports were not different from the usual run. Dr. Shayot, of Plaquemine parish, reported the troubles he was having with the Italians on Pointe Celeste plantation and said that they had barricaded themselves in their houses and warned all doctors that they would kill the first one who attempted to enter. The civil authorities were consulted and it was decided to put the whole plantation under strict quarantine until the fever had disappeared and then proceed against them criminally.

Against Greene and Gaynor.

Montreal, Special.—A decision against Colonel J. F. Gaynor and Captain B. D. Greene, the American contractors wanted in the United States on charges of defrauding the government, was handed down by Judge Oulmet in the Court of the King's Bench. It is the general belief among legal men that Greene and Gaynor have reached the limit of their resources in fighting against extradition. The defense still has two weeks in which to bring further proceedings to act as a stay. The decision given today was on a writ of habeas corpus based upon the content that Judge La Fontaine, the commissioner who held them for extradition, had no authority to act in the case.

Judge Oulmet's decision quashing the writ of habeas corpus holds the original order for extradition issued by Judge La Fontaine.

Donald McMeety, acting on behalf of the United States authorities, has notified Judge La Fontaine to make every preparation for extradition.

Rock Island's Mexican Extension.

Mexico City, Special.—It is rumored in railroad circles that the Rock Island Company is seeking an outlet to the Pacific coast of Mexico and is contemplating the extension of its road through the State of Sonora with that idea in view. The Sierra Madre road, toward the coast, it is said, may be taken over by the Rock Island people, thus giving them the desired outlet.

Associated Press Directors.

New York, Special.—At the annual meeting of the Associated Press held at the Waldorf-Astoria Hotel, the following directors were re-elected for the ensuing three years: Messrs. George Thompson, St. Paul; Dispatch; Charles H. Grasty, Baltimore News; W. L. McLean, Philadelphia Bulletin; W. R. Nelson, Kansas City Star; Adolph S. Ochs, of the New York Times, was also elected for three years to take the place of Whitelaw Reid, New York Tribune, who declined re-election on account of absence abroad.

After transacting some routine business the meeting adjourned.

Stole Large Sum.

Philadelphia, Pa., Special.—Having confessed the embezzlement of \$5,000, Andrew G. Dunlop, the local selling agent of the Mobile Cotton Mills, of Mobile, Ala., was sentenced to one year's imprisonment. He was arrested through the efforts of the Fidelity and Deposit Company, of Maryland, which was on his bond. Between May and August Dunlop sold \$5,000 worth of thread and kept the money. He admitted his guilt.

Escorted Himself to Penitentiary.

Nashville, Tenn., Special.—W. A. Barfield, convicted in Lauderdale county of manslaughter and sentenced to serve one year in prison, arrived in Nashville and went at once to the penitentiary. At Ripley, Barfield got the papers committing him to prison, bought his own railroad ticket and came to Nashville unattended.

A REIGN OF TERROR

Bomb Throwers Get in Bloody Work in Peking, China

FOUR CHINESE OFFICIALS KILLED

Deadly Missile Exploded Inside Private Car Conveying Part of the Missions Ordered Abroad to Study Foreign Political Methods Kill Four Minor Officials and Wounds Ex-Minister and Prince Tsai Tche.

Peking, By Cable.—At the Peking railway station as a train carrying one of the four missions ordered abroad to study foreign political methods kill four minor officials and wounds Ex-Minister and Prince Tsai Tche. The wounded include Prince Tsai Tche, who heads the most important of the mission, and Wu Ting Fang, former minister to the United States, both of whom received slight bruises. The perpetrator of the outrage, who was in the car, was blown to pieces.

The affair has created a profound sensation and causes apprehension regarding the safety of members of the court and leading officials of the government.

The government officers and railways are now strongly guarded.

Million Dollar Fire at Butte.

Butte, Mont., Special.—Fire causing a loss of \$1,000,000 consumed the entire business portion of Butte lying between the Shodor block and Renshaw street on the south side of West Park street, and half destroyed the public library.

The fire started in the forenoon in the Symons store, and by noon the public library and several other places were burning simultaneously.

A geyser of sparks and burning shingles spouted across the roofs of other buildings at a distance, starting fires that were, however, quickly extinguished.

The Symons building was allowed to burn and the firemen confined their labors to saving adjoining property.

It was long after noon before the flames were extinguished, leaving a mass of charred and crumbling ruins. The following are the large losses: Symons store, Maule and York blocks, owned by the New York Realty Company, \$600,000. Library building, \$70,000. Ogden block, \$50,000. Atlantic building, \$110,000. Barrett block, \$50,000. Woodworth, \$30,000.

BEATEN AND STONED TO DEATH.

Masked Mob Takes Negro Under 60 Day Sentence From Jail at Williamson, W. Va.

Williamston, W. Va., Special.—Breaking into the jail here Sunday an armed and masked mob of "white ribbons" took out Moses Lovern, a negro serving sixty days for assaulting James Butler, Taking Lovern and James Blackburn, the only other prisoner, across the river in a boat, upon landing, the mob beat, whipped and stoned Lovern until he was presumably dead. Both prisoners were returned to jail. Lovern will die. Blackburn gave the names of eight men in the mob, and Prosecuting Attorney Shepard has issued warrants for them.

City of Birmingham Floated Uninjured.

Savannah, Ga., Special.—The steamship City of Birmingham, of the Great Steamship Company's line, which went ashore near the mouth of the river here Saturday, was floated Sunday and came to her dock in this city. The vessel is uninjured. She was coming from New York to sail on Tuesday with a cargo of cotton for Boston.

Court House Burned and Six Murder Indictments Lost.

New Madrid, Mo., Special.—The court house here was burned at an early hour Sunday morning. The fire is thought to have been incendiary. Many tax and drainage records were destroyed, but the other records were saved. Six murder trials are pending, but all indictments returned to this date were burned, which make continuances necessary.

George Dixon Knocked Out.

Philadelphia, Special.—George Dixon, the former feather-weight champion, was knocked out in the second round of what was to have been a six-round bout by Tommy Murphy, of New York, at the National Athletic Club. The contest was spirited until it lasted, although it could be seen that Murphy was master of the situation from the start. The first round was a sparring contest, but in the second Murphy assumed the aggressive, and succeeded in flooring Dixon early in the round. Later, after an exchange of blows, Murphy drove a left to the solar plexus and Dixon went down and out.

Railroad Security.

Dallas, Texas, Special.—The general attorneys of Texas railroad companies secured an injunction against the railroad commission of Texas forbidding the putting into effect of an emergency rate on dry goods. The rate was much lower than the usual tariff and gave several Texas jobbing points an advantage over the big jobbing points of the country. A big legal fight is expected as a result of this temporary order.

NORTH STATE NEWS

Many Newsy Items Gathered From all Sections.

Charlotte Cotton Market.

These figures represent prices paid to wagons: Good middling...10.00 Strict middling...10.00 Middling...10.00 Tinges...9 to 10 Stains...7 to 9

Asheville's Apple Fair.

Asheville, Special.—The Western North Carolina apple fair opened with an excellent showing of fruit. The exhibits are tastefully arranged on tables prepared for the purpose. The committee room of the board of trade, where the exhibits are displayed, has been handsomely arranged. The walls are festooned with Spruce pine, while corn stalks are used as a wainscoting. The tables containing the fruit are draped in red bunting, giving a splendid color effect to the entire room and surroundings. The exhibit of Mr. Guastavino, proprietor of the "Rhododendron Farms," is elaborate. The showing of vinegar, cider and cider champagne, manufactured on the farms, is splendid. Apple raising in Western North Carolina is becoming annually a more pronounced industry. According to information received here the apple crop this year will amount to thousands and thousands of barrels. The fruit is of a superior quality and good prices are being obtained. Apple growers in Buncombe and Haywood counties as well as other counties in the western section, have commenced shipping their fruit and some difficulty is experienced in securing barrels. A small barrel factory near Waynesville with a capacity of only 300 barrels per day, is disposing of the product faster than the barrels can be made. A gentleman returning from there said that Haywood county farmers were crying for barrels and that the Waynesville factory was unable to supply the demand. There is said to be an excellent opening in this section of the State for a barrel factory and already several parties have the matter of establishing such a factory under serious consideration.

N. & I. Opening.

Greensboro, Special.—The State Normal and Industrial College opened its fourteenth annual session last week with the usual large attendance, and still others are arriving on all incoming trains. The opening exercises were held in the assembly hall of the main building, the devotional services being conducted by Rev. Harold Turner, pastor of the Spring Garden Street M. E. church. President Charles D. Melver is enjoying a vacation of a few weeks on a trip with State Superintendent J. Y. Joyner to Europe, and in his absence Prof. J. I. Foust, dean of the college, made a brief, appropriate address, incidentally remarking that this was President Melver's first vacation in over thirteen years.

Tar Heel Notes.

H. B. Barnes has been appointed deputy collector for the western district and has taken the oath and assumed the duties of his office. He succeeds one of the recently indicted and dismissed collectors. Mr. Barnes has been deputy marshal for the western district for the past few years, and has made an excellent officer.

The woolen mill of F. H. Fries at Winston-Salem, was damaged by fire and water to the extent of several thousand dollars. The mill was built before the war. The damage is a complete loss, there being no insurance.

Attempt to Explode Jail.

Somerville, N. J., Special.—An attempt was made for the second time in a few weeks, to release the prisoners in the county jail here. A charge of dynamite was exploded on a window sill, blowing a hole in the wall, through which two prisoners were about to crawl, when they were frightened back by a shot fired by an outside watchman. All the prisoners in the jail were promptly secured in cells.

An Attempt Assault.

St. Louis, Special.—A negro attempted assault on the wife of Deputy Sheriff A. J. Shores, at Clayton last night. The assailant was shot by Shores and badly wounded. The shooting attracted a mob of negroes who were prevented from lynching the negro, but were prevented and the fiend was lodged in jail. Shores was on a trolley car when he heard a scream. He saw the negro running and fired and the negro fell. Afterwards Shores learned that his wife was the victim, who was found in a faint on the sidewalk.

Negro Trouble in New York.

New York, Special.—After entering the house of Mrs. George Crossman, at 523 West One Hundred and Forty-second street, for the fourth time within four days, an unknown negro brutally attacks Miss Irene, Mrs. Crossman's fifteen-year-old daughter, and escaped before he could be caught. The police believe the man's intention on each occasion was robbery. Several detectives and police are hunting the negro.

A RIOT IN CHICAGO

Meeting Broken Up and Stormy Time at Synagogue

CRY "DOWN WITH M. WITTE"

While Adolphus Kraus Was Reporting an Interview With M. Witte Meeting Breaks Up In Riot.

Chicago, Special.—The police were called to quell a riot Monday night in the Russian synagogue. Clinton and Judd streets where Adolph Kraus was addressing a Jewish meeting. Several persons received slight wounds and 10 men and women were arrested. Mr. Kraus was giving an account of his interview with M. Witte, the Russian envoy at Portsmouth, at which he asked justice for the Jews through Mr. Witte's good offices.

"We may trust the word of Mr. Witte that he will do all within his power to armistice the suffering Jews," Mr. Kraus was saying, when suddenly a member of a Jewish society sprang to his feet.

"Do you trust a Russian politician?" he shouted.

Before Mr. Kraus had time to answer there was a shout from several hundred men and women in the audience.

"Down with Witte!"

"Down with tyranny!" came the shouts. While the excitement was at its height, the doors of the synagogue were locked and some one telephoned for the police. In a few minutes several patrol wagons filled with officers were on hand. The leaders were arrested and the meeting was dispersed by officers with drawn clubs.

To Buy Singapore Docks.

London, By Cable.—The government's intention to purchase the docks at Singapore has been an open secret for many months, and according to good authority the British government is simply facing the result of the new strategic situation in the far East, and providing her navy with convenient docks at Singapore, which is the center of the far East.

The Japanese alliance permitted the withdrawal of five battleships from the China seas, and there is no intention in times of peace to despatch any battleship to the far East. The three cruiser groups—the China, the East Indies, and the Australia squadron—will remain as before.

Meanwhile the extensive docks of the Tanjong Pagar Company will be purchased at a price to be fixed by the arbitrators now in the far East, of which board Sir Michael Hicks-Beach is the umpire, and Great Britain will have one of the finest naval bases in the world and one which in the event of war, would be of the highest strategic value.

Building Collapses.

Buffalo, Special.—With a crash that could be heard for blocks, a three-story brick building under course of construction on West Ferry Street collapsed this afternoon, carrying down with it thirty bricklayers and carpenters who were at work in and on top of the structure. A score of the men were injured, eight of them seriously. The men were working on the third story when the west wall went down, carrying with it a portion of the front of the building and a section of the rear wall. That there was not serious loss of life was due to the fact that the mass of bricks fell out towards the street.

North State News.

The people of the State will be interested to know that the number of students now registered in the University is greater, by nearly 50, than the attendance has ever been before at this time in the fall term. The total registration is 620. Of this number about 180 are freshmen, this being one of the largest freshman classes ever enrolled in the institution. The fact that there are so many new students has made it necessary to employ, since the opening of the term, an additional instructor for the department of mathematics, and also one to assist in teaching Latin.

Textile News.

The Colleton Cotton Mills, at Waltherboro, S. C., were sold at auction in that city recently under order of the United States District Court, for \$53,050. John F. Lucas, president of the Colleton Banking Company, was the purchaser. The upset price was fixed at \$45,000 by the court. There were two other bidders.

The Monroe (N. C.) Cotton Mills will add looms and discontinue making yarns. It is hoped to have the changed condition in operation by February 15th.

The Eastman, Ga., Cotton Mills

have recently been enlarged, and will give every advantage possible. On October 1 they will open up under reorganization, and their domestic and export facilities will be augmented because of the fact that they have confidence in the approaching price of cotton.

The Brenham, Texas, Cotton Mill is being enlarged to the extent of one-third more than its former capacity, few hours.

NORTH CAROLINA CROP BULLETIN

Weather Conditions Given Out by the Department Observer.

The North Carolina section of the climate and crop service of the Department of Agriculture issues the following official bulletin of weather and crop conditions for the past week:

The weather has been generally dry and warm during the greater portion of the week, and favorable for farm work, except in a few counties in the eastern district where heavy rains interfered with cotton picking and haying. Rain was quite general on the 20th and 21st and was very beneficial to growing crops. Rain is needed in the Piedmont plateau, in the extreme western counties, and in a few localities in the eastern portion of the State. The temperature in the extreme western counties, and in a few localities in the eastern portion of the State. The temperature in the western district has been about normal, and in the central and eastern districts about 4 degrees above normal.

There has been little, if any, improvement in the cotton crop during the week; it has continued to open rapidly, and in some counties the bulk of the crop is open; in Balden, Duplin, Halifax and Northampton counties, where the rainfall was deficient, the warm, dry weather has caused the bolls to open prematurely, while in the extreme northeastern portion of the State and in Sampson and Anson counties the heavy rains have done some damage to open cotton and retarded picking; it is generally reported that the bolls are small and the lint short, and that there will be no top crop, owing to shedding. No further reports of damage by army worms have been received. The crop will everywhere be below the average, and in some places very light.

Tobacco is about all out, and curing continues; it is generally reported as only a fair crop, and of inferior quality; much of it is burnt and specked, and the remainder lacks weight, but has good color and texture.

Peas, turnips, sweet potatoes, and late corn were benefited by the rain, but in places are needing more rain. Corn will be a light crop in the eastern district, and an average crop in the central and western districts. Much fodder has been cut and saved during the week; a little has been ruined by rain in the eastern portion of the State. Much of the pea-vine hay crop has been cut, and good yields are being secured. While potatoes are in good condition, and there are fewer reports of rotting; sweet potatoes are doing well. In the Piedmont region and in the extreme western counties it has been too dry for plowing for small grains, but where the soil is in condition some oats, rye, and wheat have been sown. Clover is in good condition; cabbage is a failure, peanuts are ripening and a good crop is expected; apples are specked and falling, and will be only a fair crop.

The following rains have been reported: Raleigh .05; Goldsboro .14; Greensboro .20; Lumberton .04; Newbern .24; Weldon .24.—A. H. Teheisen, Section Director.

CHARLOTTE, N. C.

A charter has quite recently been obtained for another cotton mill here with a capital of \$300,000. The incorporators are Messrs. E. A. Smith and A. H. Washburn, of this city, and T. G. Cox, of Taunton, Mass. Mr. Smith is president of the Chadwick and Hoskins mills and Mr. Washburn is the Southern agent of the Saco-Petee Machine shops, the Crompton & Knowles Loom Works, and other enterprises and is a man of affairs. It is an enterprise whose success is assured.

HOUSTON, TEX.

Inquiries have been received from parties connected with two cotton mills that are desirous of locating here, provided the proper encouragement be received. One company is anxious to erect a \$250,000 mill if \$150,000 is invested by local capital, and the other is a \$100,000 concern, with \$25,000 capital, anxious to receive assistance from local capital. An investigation of the propositions is being made, as it is admitted that Houston needs a large cotton mill.

GASTONIA, N. C.

The new Monetta Mill is now complete, as far as outward appearance is concerned. It has added considerably to the attractiveness of the other two mills—Modena Nos. 1 and 2—though the best street on the hill had to be crossed by the building. The windows and the roof are now completed and there remains nothing to be done but to put in the machinery. This is being brought in now and will soon be installed. The mill will be ready for operation by the time its promoters had planned for it to begin.

SPRAY, N. C.

It is announced that the American Thread Company will be organized for the purpose of establishing a mill for the manufacture of fine cotton and woolen yarns. An equipment of the latest improved mule spindles will be installed. B. Frank Mebane and his associates in the cotton mills of Spray are interested in the new enterprise.

Textile News.

TEXTILE NEWS OF INTEREST

Notes of Southern Cotton Mills and Other Manufacturing Enterprises.

MAXTON, N. C.

The Observer's correspondent learns from a very reliable source of an out-of-town capitalist who is very much interested in building a large cotton mill at this place, if a good site can be had and some stock taken by Maxton people. This, we are confident, can be arranged, as there have been several land owners who have offered sites for this purpose, gratis, and this means a mill in the near future. One of the locations mentioned above is adjacent to with the Seaboard and Atlantic Coast Line tracks, which would make shipping easy over either line. We hope to report something definite on this soon.

NASHVILLE, TENN.

Joe B. Morgan and his associates have obtained a charter of incorporation for the Waristo Cotton Mills, with capital stock of \$200,000. This company will take up its proposition for purchasing and modernizing the Nashville Manufacturing Company plant, which it has bought under certain conditions pertaining to the present lease. The general plan is to have an equipment of 10,000 spindles and 300 looms. The company was incorporated by Mr. Morgan, Joseph H. Thompson, William Nelson, Edwin Warner and M. J. Smith.

FAYETTEVILLE, TENN.

The Elk Cotton Mills, are understood to have planned the erection of a dam to develop power which will be converted into electricity and furnished to operate a \$60,000 cotton factory which the company intends adding to its present plant.

Charles Iceman, the well-known cotton mill manager, living at McCall, S. C., is interested in plans which are being formulated at Cheraw, S. C., for the organization of a cotton mill company there.

CHARLOTTE, N. C.

A charter has quite recently been obtained for another cotton mill here with a capital of \$300,000. The incorporators are Messrs. E. A. Smith and A. H. Washburn, of this city, and T. G. Cox, of Taunton, Mass. Mr. Smith is president of the Chadwick and Hoskins mills and Mr. Washburn is the Southern agent of the Saco-Petee Machine shops, the Crompton & Knowles Loom Works, and other enterprises and is a man of affairs. No. 11.

NEW HANOVER SUPERIOR COURT.

The September term of the New Hanover Superior Court convened Monday. The Wilmington Star says the docket for this week embraces 103 criminal cases and a goodly number of others yet to come out from the committing magistrates. The Star further states that the docket is the heaviest on record, and that it will be necessary to call an extra term to complete the docket. Wonder if Fusion rule is responsible for great increase in crime in New Hanover county? The democratic "good government" regime has been in control in this State for the past six years and crimes of every kind have been steadily on the increase. Isn't this wave of lawlessness that is sweeping the State the fruits of seeds sown by the democratic red-shirt leaders in 1898 and 1900? If the people of this State want law and order they must first put a new set of officials at the head of affairs. You cannot expect the servant to be greater than his master.

The State Land Commissioner of Texas has given to the public a long statement in which he boldly charges misconduct of the State officials. He concludes his charge as follows:

"I have heard that this matter would hurt the Democratic party in Texas. I hardly see the force of the suggestion. If those expressing that view are so politically warped as to wish the cover kept on official crookedness I doubt if they have lately been near Democracy's sanctuary."

The above would be a fine example for the Democracy of this State to follow. But they will not follow the example set by the Texas official. Their course has been to cover up instead of uncover.

Judge Lumsford L. Lewis, who resigned the district attorneyship to accept the Republican nomination for Governor of Virginia, has expressed himself as being well pleased with his chances for election, and stated that many democrats had expressed their intention of voting for him. There are many dissatisfied democrats in that State on account of the flagrant frauds perpetrated by leaders of their party in the recent primaries, and if the Republicans make a vigorous campaign they have a good chance of electing their governor.

President Roosevelt will return to Washington Saturday afternoon from Oyster Bay, where he has figured so prominently in the peace conference between Japan and Russia. All Washington is preparing to give the President a rousing welcome on his return to show their appreciation of his great work.

The trial of the attendants of the Insane Asylum, charged with causing the death of Thos. H. Hall, a patient of that institution, is set for to-day. It is not known whether they will be tried for murder, manslaughter or for a simple assault.

A woman and her son have been arrested at Williamsburg, Va., on the charge of beating to death the boy's little sister. They should introduce some expert testimony to show that the sister died of natural causes.

The only way to prevent graft is to elect honest men to office and then see to it that they remain honest.—Durham Herald.

That is just what we have been contending for in North Carolina. Isn't it time to turn the rascals out?

The Equitable Insurance company, of New York, is using the policy holders money to run a bar. They must have gotten that idea from the Raleigh dispensary.

Gov. Vardaman, of Mississippi, has denounced the northern insurance companies. This is a better streak of luck than they had reason to hope for.

Judge Parker, late Democratic candidate for President, is horrified that the president of the New York Life Insurance Co., Mr. McCall, a democrat, should have contributed about \$50,000 to the Republican campaign fund. While Mr. McCall might have done wrong if he did, behoove Mr. Parker to make the challenge. Mr. McCall says that Judge Parker's managers made his life weary begging for contributions for the democratic campaign fund, and that Judge Parker, while chairman of the Democratic Committee of New York, sought contributions from the trusts.

Only a few days ago Judge Parker was made attorney for the Rapid Transit Co., one of the largest trusts in New York.

Who said anything about "Trusts"?

THE "REAL FACTS."

"Justice" Gives a Partial History of the Fraud and Corruption of the Democratic Party.

The Wilkesboro Chronicle (democratic) some days ago attempted to criticize one of "Justice" articles in the Union Republican, but the Chronicle must be sorry now that it made the attempt. That paper said "if Justice could get politics out of his eyes long enough to look at real facts, he surely would have sufficient self-respect to not mix up politics with the Samuel-Hasty assault matter." As to the "real facts" in the case "Justice" replied as follows:

"My friend, the real facts are what trouble me. I have seen members of your party guilty of every crime covered by the decalogues against Republicans, protected by amnesty laws passed by a Democratic Legislature. Is this a real fact? I have seen your party change the laws and customs of five hundred years in order to pack the jury to rob the Republicans, as was done in the Teague and Boyer case, and these laws stand on the statute book to day. Is this a real fact?"

I have seen your party repeal criminal laws in this State to save Democratic criminals, who had robbed Republicans. Is this a real fact?

I have seen you pass laws to take the people's taxes to defend criminals who had robbed and defrauded them. Is this a real fact?

I have seen you pass laws to force the Attorney General of the State to appear in court to defend Democrats indicted for election frauds. Is this a real fact?

When the people had decided to place their affairs in the hands of Republicans I have seen you pass laws increasing the county commissioners and thereby destroying the will of the people. Is this a real fact?

I have seen you create new offices and appoint some Democrats to fill them so as to take the greater part of the fees from Republican officers elected by the people. Is this a real fact?

I saw you create a criminal court here and take from the Clerk and Solicitor, elected by the people, the fees pertaining to their office, that you might give them to Democrats. Is this a real fact?

I have seen your party descend so low that it took the people's money with which to prosecute and seek to impeach the Supreme Court Judges they had elected, without excuse and for no other reason than for party purposes. Is this a real fact?

I have seen you fill the State with new offices and double the people's taxes to pay them. Is this a real fact?

To deceive the people I have seen you cry "negro domination" in order to justify your taking from them all control of their local affairs. Yet now, when the negro is entirely out of politics, you still continue to appoint justices of the peace, and the whiter the county the more you appoint, as for instance, in Forsyth your last Legislature appointed 28, in Madison 16 and in Mitchell 20, while in the black county of Edgecombe you appoint one, in Halifax two and New Hanover one. Is this a real fact?

I have seen you use this very law in your own county to destroy the will of the people and count in a Democrat who was not elected. Is this a real fact?

From the above you can readily see that it is the real facts that trouble me; and if I desired I could fill the Republican with a list of "real facts," such as I have mentioned, which have done more to hurt the prosperity of North Carolina and retard our progress than the Civil War did, bad as that was."

Deacons Broke Up Baptist Church Meeting in Quarrel Over a Woman.

Winchester, Va., Sept. 25.—A desperate encounter between several deacons of the Old School Baptist Church at Millwood, Clarke county, resulted in a largely attended meeting becoming uproarious. Many narrowly escaped serious injury in a panic that followed. Charles Porter went after Charles King with a razor, and the latter was badly slashed. He was taken to his home in a precarious condition. The trouble occurred over a woman.

Capt. Alexander Peace Dead.

FROM OUR EXCHANGES

The peace terms are so unpopular in Tokio that there are indications that a Democratic party may be formed in Japan.—Kansas City Star.

If those Georgia editors are not lying about each other they must be a bad lot.—Graham Tribune.

It is said that 75 per cent. of the school teachers in the United States are female. They teach us when we are young, and learn us when we get grown.—Wilmington Star.

The American hen has a right to cluck and cackle. The past year with her eggs, her chickens, she added \$280,000,000 to the wealth of the country.—Baltimore Sun.

And Raleigh has twenty Justices of the Peace! Does the presence of the dispensary render this number necessary, or were they appointed simply in payment of party service?—Shelby Aurora.

Danville, Va., has been trying prohibition two years. It appears they became tired of drinking blind tiger whiskey and Dan river water, and at a wet and dried election, pulled off last Thursday in that city the wetts carried the election.—

A Democratic exchange observes that what the people are after is the truth. But it fails to add that what the people are after is found in very few democratic papers.—The Weekly Review.

The Democrats see a beacon of hope in the prediction of John D. Rockefeller (which he has since denied in the New York Herald) that the country will experience hard times in 1907. No Democrat ever felt hopeful in a season of moderate prosperity.—Globe Democrat.

If Mr. Roosevelt has done anything "they" said he would do, or has failed to do anything "they" said he would not do, we do not remember what it is. About time to pack away a few campaign lies in moth balls.—Raleigh Enterprise.

The Wilmington Messenger says in referring to a stormy meeting of the board of aldermen of that city, that "many a show has visited Wilmington that furnished far less amusement than did the board last night." This from the hot bed of "good government" Democracy.—Union Republican.

Georgia Democratic papers are charging that Hon. Hoke Smith, a good democrat and a Southern man to boot, appointed negroes to office while he was in Cleveland's cabinet. They not only make the charge but they are proving it, and in doing so also prove what a great big humbug the Democratic party is.—Hamburg Tribune.

Is it possible that after all the labor and agony of enacting the Watts law it is a criddle? We thought if there was one perfect law, outside of what was printed on tablets of stone and handed down to Moses, it was that known as the Watts law. But it is in reality the What Law, and the courts will have to answer the question.—Raleigh Post.

The investigation of the workings of the New York Life Insurance Company shows that the president of the company paid about \$50,000 to the Republican campaign fund of 1904. McCall, the president, is a Democrat, and he explains the matter by saying that the election of Parker for President would have meant ruin to his company. It is strange that leading business Democrats can't trust their own party when it comes to the national government.—Charlotte People's Paper.

Two Youths at Greensboro Killed by Shifting Engine.

Greensboro, N. C., Sept. 23.—Leslie H. Geringer and Walter A. Craven were run over and killed by a shifting engine at Laura avenue crossing last night. Geringer was 16 years old and had been employed as night telegraph operator for the Southern Railway at the Davis street office. Craven was 17 years old and was a carpenter.

Remember how Ex-Judge Alton B. Parker inveighed against the trusts and corporations last fall? Well, he has been made attorney for the Brooklyn Rapid Transit Company, one of the biggest in the lot. And they do say that he gets \$100,000 per annum, which sounds fishy.—Raleigh Enterprise.

The News and Observer quotes the Rhamkatte Rooster as saying during the campaign that "the unwashed Democracy will never put in the White House a man who by his bathing habits condemns the course of the party"—referring to the report that Judge Parker bathed every day. This is doubtless pretty good philosophy, it is not "bathing" but "whitewashing" that suits the instincts of Democracy.—Union Republican.

The Raleigh Evening Times, our George Crater's paper, of the 15th inst., calls the editor of the Biblical Recorder a liar, and Joe Daniels, editor of the News and Observer, a coward. Well, our George is built that way, always tell the truth, and has the grit to back up what he says. But if George was living in Mitchell county he and his firm would be yanked up on the charge of being vicious and dangerous.—People's Paper.

The board of directors of the State Hospital met in Raleigh last week to investigate (?) the management of that institution and to inquire into the cause of Thomas Hall's death. They made up a great deal of whitewash, putting it on pretty thick, and as good as decided that Hall died a natural death. We do not believe that there is a man in Chatham county who knows anything about this matter but believes that Hall was murdered by the four hospital attendants. Wonder what Mr. Irving Hall, the father of Thomas, and all the people at Bear Creek, who saw the signs of violence, bruises, etc., upon Thomas' body will think of this action of the board of directors of the Hospital in saying that Thomas Hall died from natural causes? The people of Chatham county are not satisfied with the way this matter is being whitewashed. Are the people helpless?

"Vengeance is mine, and I will repay, saith the Lord."—Chatham Citizen.

Mother and Brother Beat Small Sister to Death.

"The father who keeps his child out of school in order to pile up for himself riches, commits a permanent crime against his own flesh and blood."—N. C. Baptist.

Yes, and the party that drives competent teachers from the school room on account of inadequate pay commits a crime against the citizen and against the State.—Shelby Aurora.

Benjamin E. Greene and John F. Gaynor, of New York, were indicted at Savannah, Ga., in 1899, charged with embezzlement and conspiracy to defraud the United States government in connection with contracts for harbor improvements at that place. Capt. Oberlin M. Carter, corps of engineers, U. S. A., was convicted on the same charge, dismissed from the army, and imprisoned at Fort Leavenworth for a term of years. Greene and Gaynor were arrested in New York, but they resisted extradition to Georgia, and when a decision was rendered against them in a commissioner's court they fled to Canada. Each forfeited bail to the amount of \$10,000. Measures were taken to secure extradition, and there was some hope of a favorable outcome when the accused men fled from Montreal to Quebec, thus changing the legal jurisdiction. In May, 1902, detectives kidnapped them, and taking them aboard a fast tug, carried them to Montreal, where it was hoped measures for extradition would be successful. There was an exciting chase on the river, upon arrival in Montreal Judge LaFontaine committed the men to jail, but Judge Caro, of Quebec, granted a writ of habeas corpus, and they were taken back to that place and set at liberty.

Since that time, however, two separate legal actions have been brought by Greene and Gaynor in Canada to prevent extradition. The first in Judge LaFontaine's court in Montreal, and he decided against the accused men. The petition to Judge Outin, which is believed to be the last resort of Greene and Gaynor, was dismissed to-day.

The government is supposed to have lost more than \$2,000,000 through the conspiracy with which Greene, Gaynor and Carter were charged.

Why Hon. John S. Cranor Left the Democratic Party.

For some time the report has been current that Hon. John S. Cranor, of Wilkesboro, N. C., had left the Democratic party and in future he would advocate and support the principles and policies that have made the Republican party and by it our nation, the greatest and grandest government beneath the sun. In sending his subscription to The Republican some weeks ago, and replying to the same, Mr. Cranor was requested to substantiate the rumor and give this paper his reason for changing his political affiliations. This he has kindly done in the following card:

MR. CRANOR'S CARD.

WILKESBORO, N. C., Sept. 13.

Editor of The Union Republican, Winston-Salem.

Dear Sir:—In reply to yours received, I herewith hand you one dollar in payment of my subscription for one year. I have changed my politics because I think the administration of the government under Republican rule is subversive to the best interest of the entire country. It has proven economic, progressive and patriotic, thereby conferring the greatest good to the greatest number of our people, and under the guidance of the present executive head its perpetuation in power is fixed for years to come.

JOHN S. CRANOR.

If some people could get into their heads that notoriety was not fame they would give less before the public.—Exchange.

THEY MADE LOVING FIGHT.

Final Decision for the Extradition of Greene and Gaynor.

Washington, Sept. 23.—The Department of Justice to-day received a dispatch from Donald McMaster, special counsel for the United States in the Greene-Gaynor case, announcing that Judge Outin at Montreal had dismissed the petition in the defense of Greene and Gaynor against extradition from Canada. It is believed at the department of justice that no further legal steps are possible for the accused men, and that they will forthwith be brought to this country for trial.

Benjamin E. Greene and John F. Gaynor, of New York, were indicted at Savannah, Ga., in 1899, charged with embezzlement and conspiracy to defraud the United States government in connection with contracts for harbor improvements at that place. Capt. Oberlin M. Carter, corps of engineers, U. S. A., was convicted on the same charge, dismissed from the army, and imprisoned at Fort Leavenworth for a term of years. Greene and Gaynor were arrested in New York, but they resisted extradition to Georgia, and when a decision was rendered against them in a commissioner's court they fled to Canada. Each forfeited bail to the amount of \$10,000. Measures were taken to secure extradition, and there was some hope of a favorable outcome when the accused men fled from Montreal to Quebec, thus changing the legal jurisdiction. In May, 1902, detectives kidnapped them, and taking them aboard a fast tug, carried them to Montreal, where it was hoped measures for extradition would be successful. There was an exciting chase on the river, upon arrival in Montreal Judge LaFontaine committed the men to jail, but Judge Caro, of Quebec, granted a writ of habeas corpus, and they were taken back to that place and set at liberty.

Since that time, however, two separate legal actions have been brought by Greene and Gaynor in Canada to prevent extradition. The first in Judge LaFontaine's court in Montreal, and he decided against the accused men. The petition to Judge Outin, which is believed to be the last resort of Greene and Gaynor, was dismissed to-day.

The government is supposed to have lost more than \$2,000,000 through the conspiracy with which Greene, Gaynor and Carter were charged.

Why Hon. John S. Cranor Left the Democratic Party.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longhill hospital for the insane, at Longport, Ind. He was there nearly three years, but he had but two very light spells since last August, 1902, and then he was not well other ways. We pronounced him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

M. H. BUNNELL, Lincoln, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

Negro Man Split Open by a Circular Saw.

Statesville, N. C., Sept. 25.—Elam Griffin, colored, met his death this afternoon about 8 o'clock at Gibson Bros. sawmill, near Lorry, being thrown against a circular saw face foremost. Griffin was off beam, the man who carries away planks as they are carried from the saw. A plank that he was carrying struck a belt and was thrown against the tight pulley, the man being thrown on the saw. His body was split open. Griffin was about twenty years old.

ARE YOU ENGAGED?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck or her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." All druggists sell and guarantee them, at 50c. a bottle.

Woodleaf Station Robbed.

Salisbury, N. C., Sept. 25.—The Southern Railway depot at Woodleaf, Rowan county, was broken into last night and robbed of a lot of merchandise contained in the freight room. A store near the station was also entered and a quantity of goods stolen. The robbers escaped in the darkness. This is the second time the Woodleaf depot has been robbed within a year. The building was also destroyed a few months ago by fire, which was believed to be of incendiary origin.

LIKE FINDING MONEY

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and cold dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Great relief came from a single bottle of the medicine in the world. At all druggists; 50c. and \$1.00; guaranteed. Trial bottle free.

To Protect Policemen.

Kicking policemen is practiced to such an extent by Liverpool roughs of both sexes that it is suggested to provide the constables with leg guards to wear under their trousers.

Arrest It—\$50 Reward.

A small sample bottle of Eucalypti will be sent free to every reader of the CAUCASIAN who is suffering with any kind of skin disease, such as Eruptions, Eczema, Itch, Pimples, Fever, Sore, Cancer, Rheumatism, Pains, or any other form of disease, or sore of any name or nature. \$50 reward will be paid for any case of Eczema that is not promptly cured with Eucalypti. Eucalypti will heal any sore or cure the worst skin and make it look like velvet. Thousands are cured daily. Never mind what you have tried; forget the failures made by other remedies and send for free sample of Eucalypti which always gives relief and permanent cure. A \$1.00 bottle of Eucalypti does not have Eucalypti send direct to us. The Eucalypti Company, M. Kupermeister, Patent Agent, 112 Dearborn St., Chicago, Ill.

Trinity Park School

A first-class preparatory school. Certificate of graduation accepted for entrance to leading Southern colleges.

BEST EQUIPPED PREPARATORY SCHOOL IN THE SOUTH.

Faculty of ten officers and Teachers. Campus of seventy-five acres. Library containing thirty thousand volumes. Well equipped gymnasium. High standards and modern methods of instruction. Frequent lectures by prominent lecturers. Expenses exceedingly moderate. Seven years of phenomenal success. For catalogue and other information, address:

J. A. BIVINS, Headmaster, DURIAM, N. C.

THE NORTH CAROLINA

College of Agriculture and Mechanic Arts.

P. tion in Agriculture, Engineering, Industrial Chemistry and the Textile Art. Tuition \$30 a year. Board \$3 a month. 120 Scholarships.

Address

PRESIDENT WINSTON, RALPH, N. C.

THE A. & M. COLLEGE

GREENSBORO, N. C.

The fall term begins Sept. 1, 1905. Strong faculty, unsurpassed facilities; new dormitory being erected to meet increasing demands; short courses in Agriculture, two years courses in trades, two practical four years courses, one in Agriculture leading to the degree of B. Agr., and one in Mechanics leading to the degree of B. S. graduates in great numbers. Limited number of the students received from each county. Write at once and secure accommodation for the approaching session. For catalogue or further information, address:

PRES. DUDLEY, Greensboro, N. C.

TRINITY COLLEGE

Four Departments—College, Graduate, Engineering and Law.

Large library facilities. Well equipped laboratories in all departments of science. Gymnasium furnished with best apparatus. Expenses very moderate. Ad for worthy students.

Young Men wishing to Study Law should investigate the superior advantage offered by the Department of Law in Trinity College.

For catalogue and further information, address

D. W. NEWSON, Registrar, DUREM, N. C.

5000 TELEGRAPHERS

NEEDED

Annually, to fill the new positions created by Railroad and Telegraph Companies. We want YOUNG MEN and LADIES of good habits, to

LEARN TELEGRAPHY

AND R. R. ACCOUNTING.

We furnish 75 per cent of the Operators and Station Agents in America. Our six schools are the largest ever taught in the world. He who is well equipped by all leading R. R. O. B. S. is a \$250.00 Bond to every agent to furnish him or her a position in the R. R. or a \$100.00 a month in the States east of the Rocky Mountains, or from \$75 to \$100 a month in the States west of the Rocky Mountains, IMMEDIATELY UPON GRADUATION.

Students can enter at any time. No vacations. For full particulars regarding any of our Schools write direct to our executive offices at Cincinnati, O. Catalogue free.

The Morse School of Telegraphy

Cincinnati, Ohio. Buffalo, N. Y. Atlanta, Ga. Los Angeles, Cal. Texas, Tex. San Francisco, Cal.

You Look Yellow!

THE TROUBLE

is, your liver's sick. One of its products, "bile," is overflowing into your blood.

You can't digest your food, your appetite is poor, you suffer dreadfully from headache, stomach ache, dizziness, malaria, constipation, etc. When feeling this way the dreaded fever poison is very likely to get into your blood. What you need is not a dose of salts, cathartic water or pills—but a liver tonic

Thedford's BLACK-DRAUGHT

This great medicine acts gently on the sick liver. It purifies the blood, renews the appetite, feeds the nerves, clears the brain and cures constipation.

It is a true medicine for sick liver and kidneys, and regulates all the digestive functions. Try it.

At all Druggists in 25c and \$1.00 packages.

THE CAUCASIAN

RALEIGH, N. C. Sept. 11, 1904

Entered at the Post Office in Raleigh, N. C., as second-class mail matter.

Charlotte and Statesville are each to have a new cotton mill.

The Carolina Central Fair will be held in Greensboro October 10-13 inclusive.

The Guilford Hotel in Greensboro has employed white servants except the porters and bell boys.

It is stated that Mr. Howard Banks will be managing news editor of the Industrial News at Greensboro.

It is said the three railroads running into Goldsboro will build a union depot at that place.

The State Fair at Raleigh embraces the week of Oct. 16th-21st inclusive. Don't forget the date.

Four large British steamships arrived in port at Wilmington Monday to be loaded with cotton for the English market.

Mr. Bailey Upchurch, a prominent grocerman of Raleigh, died Monday afternoon of cancer of the stomach.

Leaf tobacco buyers say that the crop this season, except in the west, is light and thin; the further eastward one goes the lighter and thinner the leaf is. West of Raleigh it is much better than elsewhere. — Progressive Farmer.

The New Daily at Greensboro.

We are informed that the first number of the Daily Industrial News will be issued October 8th. We have needed such a paper for some time, and we hope as many as our readers as can will take the paper. You can either send your order for the new daily to Greensboro or send it to us, and we will forward it for you.

MUST CALL AN ELECTION.

Judge Justice Issues the Mandamus—Board of Aldermen Must Order an Election.

Yesterday at noon the Raleigh whiskey fight came up before Judge Justice. The Judge decided that according to the Watta law the Board of Aldermen must order an election on saloons or dispensary. The dispensary element took an appeal to the Supreme Court. It will be remembered that the Board of Aldermen struck 170 names off the petition as they had not paid their poll tax for this year. But the Watta law says those can petition who were registered voters at last election—so the 170 names must remain on petition unless the Supreme Court reverses Judge Justice's decision.

Postmistress at Hallsboro Charged With Opening Letters.

Wilmington, N. C., Sept. 25.—Mrs. Florence M. Hall, postmistress at Hallsboro, Columbus county, was today given a preliminary hearing at Whiteville on the charge of tampering with the mails. Mrs. Hall had no witnesses. The prosecution offered as witnesses a negro mail clerk and two officials of the Bogue Trading Company of Hallsboro.

The evidence tended to show that the postmistress had tampered with mail by opening certain letters addressed to the trading company.

The commissioner, after hearing the evidence, bound Mrs. Hall over to the Federal court. The friends of the defendant, while not admitting her guilt, claim that if she did unlawfully open any letters only curiosity prompted the act. Ball was furnished and Mrs. Hall was released.

Meek—"I say, old chap, I'm in shocking bad luck. I want some money badly, and I haven't the least idea where I can get it." Beek—"Well, I'm glad to hear that. I thought perhaps you had an idea you could borrow from me."—London Answers.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE GREAT STATE FAIR

Will Be Held in Raleigh October 16-21 Inclusive.

Prospects are bright for the greatest State Fair ever held under the auspices of the North Carolina Agricultural Society. A large number of entries have already been received. One of the most interesting of these is that made by the LaFayette Stock Farms of LaFayette, Ind., being a car load of German coach and heavy draft horses. These are all brooded animals and won many premiums at the St. Louis Exposition. The attention of all farmers and lovers of horses is urgently called to this exhibit.

There will be a beautiful display of sheep, North Carolina bred, by Samuel Archer, of Sheepwalk Farm, Statesville, N. C., and a beautiful display of northern sheep and swine, by Messrs. E. Campbell & Son, of Wellington, Ohio.

The free attractions will be such as to delight all. Mile Zingarella, in her Spiral Tower Act, which she showed at the St. Louis Exposition and at the Paris Exposition, will be here. The lady stands on a ball and rolls it up a steel spiral with her feet. When she gets to the top she performs many wonderful feats of jugglery and descends the spiral standing on the ball.

Prof. Ed. Hutchinson will give daily exhibitions of his wonderful Human Bomb Act.

Madam Leona Bonni will give, twice each day, a wonderful trapeze performance.

Mt. Gay, the most daring High Diver in America, will dive twice each day, from a 90-foot ladder backward, and turning a somersault into a four-foot tank of water.

The Midway will be full of the most interesting and novel exhibits, one of the best being G. W. Bollins' Trained Wild Animal Exhibition, showing Croule, the 700-pound lion, worth \$10,000, and the giant, Cesar.

The train accommodations will be better than any heretofore given, and the Chamber of Commerce is making strenuous efforts to take care of the vast number of visitors expected. There will be no free bureau of information on Fayetteville street. One feature that will add greatly to the comfort of the visitors is the doubling of the street car system.

During the week there will be many very interesting meetings. On Tuesday night will be the meeting of the State Literary and Historical Society. On Wednesday night the North Carolina Division of the United Confederate Veterans will hold their annual convention. On Thursday night is the regular meeting of the Agricultural Society. On Friday night is the great Marshals' Ball.

Write the Secretary for Premium List and information.

Looks Gloomy for Peter Smith.

As our readers know, Gov. Glenn granted Peter Smith a respite of ten days that the testimony of his victim might be taken in reference to the report that she had declared that she had sworn falsely against him on his trial in the Superior Court. Her testimony was taken by Judge Fred Moore last Monday evening, and in her testimony she stated positively that the evidence she gave in the trial of the case was the truth, and that she had made no affidavit to the effect that her testimony in the Superior Court was false. It now looks gloomy for Peter, and the probabilities are that he will suffer the sentence of death that has been pronounced against him. — Asheville Register.

KILLED HUSBAND ABOUT A DOG.

Sensational Development Reported in a Georgia Murder Case.

Albany, Ga., Sept. 23.—Reports received here from Newton state that sensational developments in the Milner murder case have occurred. A special from that place says:

"On yesterday Quintin Milner, the young man who is in jail charged with killing his father, Rollie Milner, sent for several citizens of the town and made a full and complete statement of how the killing occurred and by whom the crime was committed. He said that his mother and father were quarreling over a dog when his mother seized the gun and shot his father. He said that his mother got him to tell the story about his shooting his father while asleep. They then planned for him to pretend to be crazy in order to cover up the crime. In making his confession young Milner said that he had stood the strain as long as he could, and that he would tell the truth if it killed him. As a result of his confession the authorities here sent over and had Mrs. Milner arrested and lodged in jail last night."

Republicans Will Put Up Candidates for Legislature in Every District in Virginia.

Richmond, Va., Sept. 25.—The Republicans are now claiming that they will either carry the State or that the result will be exceedingly close. They have determined to put up men for the legislature in every district.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, MRS. WINSLOW'S SOOTHING SYRUP, for children's teething. It soothes the child, softens the gums, allays all pain, cures colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI

THE FEMALE REGULATOR,

that marvelous, curative extract, or natural wine, of herbs, which exerts such a wonderful, strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the womb muscles to pull the womb up into place.

It is a sure and permanent cure for all female complaints.

WRITE US A LETTER

Put aside all timidity and write us freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We will send free advice (in plain, sealed envelope), how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

"I SUFFERED AWFUL PAIN

In my womb and ovaries," writes Mrs. Susan Baker, of Webster Groves, Mo., "also in my right and left sides, and my system was very painful and irregular. Since taking Cardui, I feel like a new woman, and do not suffer as I did. It is the best medicine I ever had in my house."

Count of Cash—Over a billion Dollars in the U. S. Treasury.

Washington, Sept. 19.—The count of cash in the United States treasury, which takes place every time a new treasurer enters upon the duties of his office, was completed today. The count shows that the amount, aggregating a good deal more than a billion dollars, was correct to a cent, according to the figures rendered by Ellis H. Roberts on July 1st, when he handed over the treasuryship to Charles H. Treat. The grand total of cash, bonds and other securities is \$1,259,598,287.58 2/3. This is an enormous gain over the funds reported at the time Ellis H. Roberts became treasurer of the United States in 1897, the total seven years ago being only \$796,925,439.17 2/3.

When the count was made in 1897 it was found that there was a shortage of about \$800, some person having removed that amount of silver dollars from the bags in the silver vault and substituting base metal to make up the weight. Not a cent is now missing.

GOT OFF CHEAP.

He may well think he has got off cheap, who, after having contracted constipation or indigestion, is still able to perfectly restore his health. Nothing will do this but Dr. King's New Life Pills. A quick, pleasant, and certain cure for headache, constipation, etc. 25c. at all druggists; guaranteed.

"Do you owe Biker money?"

"No." "Why do you avoid meeting him?" "Don't want him to owe me money."—Cleveland News.

ATTACKED BY A MOB.

and beaten, in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve, and was soon sound and well.

"I use it in my family," writes G. J. Welch, of Tekonsha, Mich. "and find it perfect." Simply great for cuts and burns. Only 25c. at all druggists.

The Optimist—"Fine day, isn't it?" The Pessimist—"Oh, I don't know. It's probably raining somewhere." Chicago News.

WEALTHY YOUNG LADY, ATTRACTIVE, affectionate, worth over \$25,000, and 100-acre farm, desires immediately loving husband. Address, Mrs. W., 697 Fulton St., Chicago.

Special Rates to Raleigh, N. C., via Seaboard Account of the North Carolina State Fair, October 16th-25th, '05.

The SEABOARD announce they will sell excursion tickets from all points within the State of North Carolina, including Norfolk, Portsmouth, Richmond, Petersburg, Suffolk, Franklin and intermediate points in the State of Virginia, account of the State Fair, October 16th-21st, for one first class limited fare for round trip, plus fifty cents for one admission to the Fair Grounds (minimum rate including admission coupon, \$1.00.)

The rates from the principal points will be as follows:

Portsmouth, Va. \$5.95

Norfolk, Va. 5.95

Suffolk, Va. 5.45

Franklin, Va. 4.95

Lewiston, N. C. 4.45

Rich Square, N. C. 4.45

Richmond, Va. 5.30

Petersburg, Va. 4.70

Weldon, N. C. 4.70

Oxford, N. C. 2.40

Henderson, N. C. 1.95

Sanford, N. C. 1.85

Hamlet, N. C. 3.60

Maxton, N. C. 4.35

Lumberton, N. C. 4.35

Wilmington, N. C. 4.80

Monroe, N. C. 5.85

Charlotte, N. C. 6.15

Lincolnton, N. C. 6.90

Rutherfordton, N. C. 8.45

Hickory, N. C. 6.90

Lenoir, N. C. 7.40

For Military Companies and brass bands in uniform, twenty or more on one ticket the following rates will apply for round trip:

Portsmouth, Va. \$3.55

Warren Plains, N. C. 1.25

Henderson, N. C. .90

Oxford, N. C. 1.20

Louisburg, N. C. .75

Franklin, N. C. .65

Sanford, N. C. .85

Maxton, N. C. 2.10

Wilmington, N. C. 2.65

Charlotte, N. C. 3.50

Shelby, N. C. 4.55

The rates for Military Companies do not include admission to the Fair Grounds. Tickets will be sold October 13th to 20th, inclusive, and for trains arriving at Raleigh forenoon of the 21st, final limit of tickets October 23rd.

The SEABOARD will arrange to operate special trains from Weldon, Oxford, Louisburg, Hamlet and intermediate points to Raleigh on Wednesday and Thursday, October 18th and 19th.

AGAINST THE STORM THERE IS NO PROTECTION IN THE WORLD LIKE TOWER'S SLICKERS

FOR SALE BY ALL THE BEST DEALERS. TOWER'S FISH BRAND. A. J. TOWER CO. ESTABLISHED 1836. BOSTON NEW YORK CHICAGO. TOWER CANNAN CO. LIMITED TORONTO, CAN.

Judge Ready with Compliments. Judge Whitman is the only bachelor on the board of city magistrates in New York. He was called upon one forenoon to marry a couple from Philadelphia. The bride handed him a handsome rose from her bouquet and said: "I want you to take it home to your wife."

"I shall be delighted to accept it," said his honor, "but can't I wear it myself? I have no wife." The bride looked at him with compassion. "That's too bad," she said, "and you so good-looking." Then she turned to him suddenly and said: "Won't you come over to Philadelphia and let me introduce you to my sister?" "If she looks like you," responded the judge with a bow, "I shall be tempted to take the next train."

Heroic Remedy.

Some anonymous individual with no poetry in his soul has written to a New York paper complaining of a whip-poor-will that bothers him at night, and another anonymous individual who has in his soul no innate love of birds suggests:

"If Pater Familias really desires to drive the whip-poor-will from the tree, the following is a recipe guaranteed to cause it to quit the place:

Dose: Three each evening on retiring (10-11 p.m.) exploded through the tree. This has been known to cure the most aggravating cases."

Limitations lead to liberty. So, 39.

GET POWER.

The Supply Comes From Food.

If we get power from food, why not strive to get all the power we can. That is only possible by use of skillfully selected food that exactly fits the requirements of the body.

Poor fuel makes a poor fire and a poor fire is not a good steam producer. "From not knowing how to select the right food to fit my needs I suffered grievously for a long time from stomach troubles," writes a lady from a little town in Missouri.

"It seemed as if I could never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt gave me heart-burn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton, and in time was compelled to keep to my bed."

"A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I have kept up its use ever since. I was surprised at the ease with which I digested it. It proved to be just what I needed. All my unpleasant symptoms, the heart-burn, the inflated feeling which gave me so much pain disappeared. My weight gradually increased from 95 to 116 lbs., my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. The Grape-Nuts food did it." Name given by Postum Co., Battle Creek, Mich.

A ten days' trial will show any one some facts about food.

"There's a reason."

SOUTHERN FARM NOTES.

TOPICS OF INTEREST TO THE PLANTER, STOCKMAN AND TRUCK GROWER.

The Winter Garden.

One of the most important winter crops is spinach. We usually sow it in the early part of September, and then make another sowing about the first of October, as this sowing will usually just get large enough to winter, and will be better for spring use than that sown earlier.

We try to have a large plot of spinach, for all that we cannot use at home finds a ready sale. To make a ton of spinach fertilizer we mix 900 pounds of acid phosphate, 900 pounds of cottonseed meal and 200 pounds of muriate of potash. We use this at the rate of about 600 pounds per acre on strong garden land. Our standard mixture for truck crops is 500 pounds of acid phosphate, 700 pounds of cottonseed meal and 400 pounds of muriate of potash, but leafy plants like cabbages, spinach, etc., need a fertilizer high in ammonia, and hence for these we change the proportions. The only winter crop of a leafy nature to which we apply the last-named mixture is lettuce, but of late we have varied this and make it 800 pounds of acid phosphate, 800 pounds of dried blood and 400 pounds of muriate of potash. This is the result of many years of experimenting in the growing of lettuce in frames in winter. We found that cottonseed meal encouraged the growth of the damping-off fungus in the frames and we get a higher percentage of ammonia with the dried blood.

The winter lettuce crop is now the most important one grown by market gardeners in the South Atlantic States. Most of our growers use cotton cloth on their frames and some have established expensive steam plants, and run steam pipes through the frames. While cloth is cheaper at the start than glass, the glass is, in the long run, cheaper, and no steam heat is needed if one has straw or burlap mats to cover the glass on extreme cold nights. I use mats made six feet square made of burlap with waste wool quilted between. These are used only in the most severe weather, and mats that have been in use four winters look still as good as new. By their aid I keep frost out entirely, and do not need the great expense of steam. With cloth the grower is at times obliged to keep the cover on several days and the plants suffer from lack of sunshine, while the glass admits the sunshine and they grow sturdy and strong.

I have found that the best winter lettuce demands a liberal amount of well rotted horse stable manure to be used in addition to the fertilizer, for we have found that the best lettuce cannot be grown with manure alone nor with fertilizer alone. It is chiefly the moisture-retaining nature of the rotted manure that aids in the solution of the fertilizers used.

We make our first sowing of lettuce the last of August, and then another late in September and a third sowing is made in one of the frames after the first crop of lettuce has been cut out in January. The August sowing can usually be headed in November without the help of frames. The second sowing is set in the frames the last of October and is cut out during the winter, when plants from the same sowing that have been left in the open ground are used for replanting and a part of one frame as we have said is used for sowing seed. The plants from this sowing are for setting in the open ground the first of March for the last spring crop.

Those who are growing lettuce for winter should always have an abundant water supply, for it is often essential to irrigate the beds in our dry fall weather to get the seed to germinate, and when glass is used it is equally important to have a supply for watering the frames so as not to be dependent on the rainfall.

Another winter crop in which we take a lively interest is the "water radish." For this crop we use the Rose Colored and the White Chinese. This is heavily fertilized with the first mentioned mixture of 97, and four parts of acid phosphate, cottonseed meal and potash at rate of 1000 pounds per acre, and the seed is sown in rows one foot apart in September over very mellow and warm soil. As soon as large enough to handle, they are thinned to two inches in the rows, and as the weather gets cold the rows are well mulched with fresh straw manure. We thus are able to pull good solid radishes all winter through till the early radishes sown in the frame are ready for use.

In part of our frames we take but the one crop of midwinter lettuce. We then again fertilize the frame and sow seed of radishes and beets late in January in rows crosswise the frames just wide enough apart to work with a hoe three inches wide. For this crop we use of radishes the French Breakfast and the White "Just So," one of the prettiest of turnip radishes. Of beets, we find for

the frames nothing better than the Egyptian. These are sown rather thickly in the rows so that the thinning can be set in the open ground in March or late February as a succession crop, and these will come on in advance of the seed sown in the open ground.

Lastly, we sow a crop of flat turnips later in September so as to have them just forming roots the size of a walnut when the cold weather comes. We then throw a furrow to each side of the rows and they winter much better than the early sown ones and give us a plentiful supply of greens in the spring. We find the winter garden the most profitable and enjoyable of all the year, as it is never too hot to work, and the products all bring higher prices than those of the summer garden.—W. F. Massey, North Carolina Experiment Station, Raleigh.

Shade For Small Stock.

Most farmers make some attempt to provide shade in the pasture for their horses and cows, but let the swine, sheep and poultry go without it, which is certainly a mistake, for all animals and birds like shade. It is an easy matter to erect a number of small shade places on the pasture, and at small expense, if one is willing to invest the small amount of labor necessary. If there is a wood lot on the farm, what is easier than to cut a number of poles to use for posts, and then a number of lighter branches to use as the foundation for the roof? Set the poles firmly in the ground, making

four posts for the corners, then, with the branches and a lot of waste hay or straw, a thatched roof is easily constructed.

Spend enough time on the work to make it strong enough so that the wind will not blow it over. When you finish you will have a shade house something like that shown in the cut, and the stock will enjoy it and be all the better for it. They would thank you, if they could, so spend a little time building some, even two or three by way of experiment.

Ducks Have No Crops.

Unlike other domestic fowls the duck has no crop—all food passing direct from the throat to the gizzard. For this reason ducks need soft food, and this is why in their natural state they seek the fields and marshes, where they may gather tender grass, bugs and worms. In confinement their proper food is wheat bran, cornmeal, ground oats, meat scraps, sand and green food.

On the farm they will look out for themselves, and only a scant supply of some soft food need be given. Ducks are fond of potatoes, and will greedily devour all the parings and small potatoes that are useless for other purposes. It is well also to remember that the sand supplies only in a small way the digestive machinery. Some good, sharp grit must be kept convenient for them.

Care of Capons.

The capons are now just beginning to grow and build large frames, and they should be looked after carefully. They should be kept in separate yards, and have all they will eat of good, wholesome food. It is needless to give them the run of the farm, as they will not roam over it as other chickens do. They are big, lazy fellows which eat and grow, and they well repay us when the time comes to send them to market.

Nice capons, weighing when dressed, from six to eight pounds, will easily bring from twenty-five to thirty-five cents a pound, while other chickens of same age which weigh about four pounds will bring only twelve or fifteen cents.

The flesh of a capon is superior to that of any other poultry, and the demand for them is growing each year.

Orchard Manure.

For young growing fruit trees, wood ashes supplying the non-volatile element for making wood are an excellent fertilizer, causing a free, but firm growth. With bearing fruit trees, stable manure or some other complete fertilizer should be used, as without such food supply the leafage will be pale and scanty and the fruit crop light and poor.

Pointed Paragraphs.

The situation in the Caucasus is more alarming, fully 1,000 persons having been shot down, according to reports.

Cholera is spreading steadily in Prussia, where 15 new cases developed in 24 hours.

Venezuela has expelled the manager of the French Cable Company because he protested against the closing of the company's offices.

Police reports state that 400 policemen and firemen were wounded in the Tokio riots, while nine civilians were killed and 487 wounded.

Western learning is to be made an essential to employment in the Chinese civil service.

GOOD ROADS

Depends on the People.

P. BROWNLOW, member of Congress from Tennessee, writes as follows in Good Roads Magazine. It has occurred to me to say to the friend of national aid to good roads that I am in receipt of information from all parts of the country of the most encouraging character, and carrying assurance that the subject has firmly fixed itself in the minds of the people. The sentiment in its favor is growing stronger all the time, and I feel more to-day than ever before that the movement will ultimately be successful.

National aid to good roads, as a plain, practical business proposition, has more meat in it for the general welfare than a hundred river and harbor bills or the acquirement of any or all new territory to be found between the rivers and the ends of the earth. The entire constitutionality of the proposition is now almost universally admitted, and the necessity for it in all parts of the country is so urgent that Congress cannot long refuse to recognize it as a national obligation.

The continued and continuing force of the movement, however, must depend upon the people themselves. The people are sovereign under our system. Here they make and unmake laws. It is occurring every day. The popular will is the commanding force in a republic like this. The right of petition is a recognized principle of our government. If the people demand national aid to good roads, national aid to good roads will come. The man and the hour will arrive together. There can be no two opinions about that.

The commercial bodies favorable to some such legislation as is proposed in the Brownlow and Latimer bills should strongly address themselves to the work. It is more important to them than any other probable public measure could be. Every trade union, local board of trade, farmers' organization, and other defined body in the country should take like action. In counties throughout the Union public meeting should be held and the popular will expressed in formal memorials to Congress. It is, too, a perfectly legitimate subject for church and school authorities to be heard upon, because church and school interests cannot thrive as they should thrive in a land of impassable roads.

Railroads are interested, and should be heard, because good wagon roads increase the tonnage to be handled by railroads. Manufacturers of all sorts of road vehicles, whether horse or motor, and of every kind and character of farm and other machinery have much at stake in the success of the movement. The stock raisers, fruit growers and dairy interests are all involved, because the wagon roads are their means of communication. Lawyers and doctors and the clients of both need to speak for attention. Town and city people who get their all to eat from the farms have a money as well as a social interest in good roads. The subject is important to every calling and condition, and whenever a voice can be raised in its favor it should be done. Whenever a newspaper is published its columns should be invoked in arousing public sentiment. No means or method of reaching Congressional attention should be neglected. Let us have a reawakening and a thorough shaking up. Congress will not go ahead of the people, as has been wisely said, but Congress will hear and heed the people. Send petitions and memorials to each individual Senator and Representative in Congress. Write personal letters to them. Make the demand as a right belonging to the people. Herald it from the house-tops and in the streets, in the highways and the byways. Make it strong. Make it pointed. Make it earnest. This is a movement of the people; it belongs to the people; the people have a right to be heard. Their voice is, as it always has been, omnipotent.

I know of no surer way to success of the movement for national aid to good roads than through agitation. I know of more effective way to agitate the subject than that suggested. Those who favor national aid can do much to strengthen it in Congress if they will, and I have cruelly outlined what I consider the best method of reaching the desired end. Let every friend of the good roads national aid movement get busy—from the centre clear 'round to the sea.

Dear Mrs. Pinkham: I want to tell you how much good Lydia E. Pinkham's Vegetable Compound has done me. I suffered for eight years with ovarian trouble, and I was so tired and irritable, and it did not seem as though I could stand it any longer, as I had five children to care for. Lydia E. Pinkham's Vegetable Compound was recommended and it has entirely cured me. I cannot thank you enough for your letter of advice and for what Lydia E. Pinkham's Vegetable Compound has done for me.—Mrs. Ph. Hoffman, 100 Hiram Street, Brooklyn, N. Y.

Highway Engineering.

This new profession was first recognized in the educational world by the Rhode Island College of Agriculture and Mechanic Arts, when, in the autumn of 1904, it adopted a full four years' course in highway engineering, for the completion of which the degree of Bachelor of Science is given. Two of the senior class of the present year have taken the course and have qualified as highway engineers. The course is attracting considerable attention and has the cordial endorsement of the best highway experts of the country. There can be no doubt of the need of good highways and of the future demand for men who are thoroughly trained as highway engineers. The course offered by the Rhode Island College is practical as well as theoretical, and graduates will be prepared to fill satisfactory positions which are sure to open.

He Saw It.

An American touring in the country with an English friend stopped to point out to him a sign-post on which some wag had printed this sign: "This way to Squunk. Those who cannot read apply at the blacksmith's opposite."

The American roared with laughter, but the Englishman looked puzzled. After they had returned home that night the Englishman came into his host's room roaring with laughter. "Ah," he said, "I see the joke now—suppose the blacksmith were out?"—Harper's Weekly.

LIGHTING LORE

ACETYLENE EXCELS AS AN ILLUMINANT.

Gas or Lighting Formerly Confined to Cities and Large Towns, Now in General Use in the Country.

The satisfactory lighting of suburban and country homes requires that the means used shall be convenient, safe, economical and furnish a brilliant, penetrating, efficient light.

Everybody admits that these are not the characteristics of the candle or kerosene lamp, which, formerly, were the only feasible means of producing light for domestic use in the rural districts.

For generations there was a crying need, a yearning for something better, which was not satisfied. A few years ago deliverance came in the shape of the chemical compound, Calcium Carbide, from which, by the simple application of water, the gas Acetylene is derived. Acetylene meets all the requirements fully and admirably and is being generally used.

Common lime and carbon in the form of coke or coal are the raw materials which, fused in an intensely heated furnace, make Calcium Carbide, and there is no difficulty in obtaining it in any part of the country.

The machine into which the Calcium Carbide is fed and from which the Acetylene is distributed through the building to be lighted, is but little larger than a thirty-gallon milk can, and of the same general form. It is easily and cheaply installed, either in the cellar or in an outbuilding.

The light from burning Acetylene is exquisite, and lighting experts agree that it surpasses all other known illuminants. It does not taint the air nor strain the eyes, and is not objectionable in any respect. Every up-to-date rural residence should be equipped with Acetylene light.

Does It Pay?

The nervous man had just met his friend, who for some months past had been in retirement for his health.

"I have sometimes thought it might be a good thing for a man to go away for awhile," he said, "and to get cured perhaps of a hold on him. I changed my opinion on the second part of that proposition, however, after I had an evening with a friend of mine who had just come back from a course of treatment."

"We were together in a cafe for an hour or more. During all that time he would, of course, not take a drink. Such a thing never occurred to him. But he would take some coffee. I think I had two highballs while we talked. I know he had seven pots of black coffee. There didn't seem to be much doubt that he had gotten over one habit. He had acquired another, however, that made it seem a stand-off whether he had gained by the change."

Mothers Are Helped

THEIR HEALTH RESTORED

Happiness of Thousands of Homes Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.

A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some derangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

Tired, nervous and irritable, the mother is unfit to care for her children, and her condition ruins the child's disposition and nerves upon herself. The mother should not be blamed, as she no doubt is suffering with backache, headache, bearing-down pains or displacement, making life a burden. Lydia E. Pinkham's Vegetable Compound is the unfailing cure for this condition. It strengthens the female organs and permanently cures all displacements and irregularities.

Such testimony as the following should convince women of its value:

Dear Mrs. Pinkham: "I want to tell you how much good Lydia E. Pinkham's Vegetable Compound has done me. I suffered for eight years with ovarian trouble, and I was so tired and irritable, and it did not seem as though I could stand it any longer, as I had five children to care for. Lydia E. Pinkham's Vegetable Compound was recommended and it has entirely cured me. I cannot thank you enough for your letter of advice and for what Lydia E. Pinkham's Vegetable Compound has done for me.—Mrs. Ph. Hoffman, 100 Hiram Street, Brooklyn, N. Y."

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

THE MAN

BEHIND THE SAW

Has easy work it's an Atkins The keen, clean cutting edge and perfect taper of the back-saw is what makes it so valuable without bucking. Go "humping" to go with the Atkins Saw.

Behind the other men behind the Atkins Saw. The originator of silver steel, the finest crucible steel made, was a good deal of a man. The discoverer of the Atkins saw-cutting process was likewise a man of brains and genius.

And there are high-class workmen behind this saw. The Atkins Trade Mark is an assurance of quality as reliable as the Government assay stamp. We make all types and sizes of saws, but only one grade—the best.

Atkins Saws, Corn Knives, Perfection Floor Scrapers, etc., are sold by all good hardware dealers. Catalogue on request.

E. C. ATKINS & CO., Inc. Largest Saw Manufacturers in the World. Factory and Executive Offices, Indianapolis, Indiana.

BRANCHES: New York, Chicago, Minneapolis, Portland, Seattle, San Francisco, Memphis, Atlanta and Toronto, Canada.

RECORDS OF THE PULSE RATE.

Instrument Shows Heart's Action During Muscular Work and After.

A recent publication of the University of Michigan describes an instrument for securing a continuous graphic record of the pulse rate in man which afford valuable indications of the heart's work. The records showed that the commencement of muscular work is followed almost simultaneously by a marked acceleration of the pulse. In fact, this modification of the pulse rate is observed in the next heart cycle after the work begins. In typical cases there are three well-marked stages—a primary rise, a period of sustained acceleration and a secondary rise. Similar stages of decrease in rate occur after the work stops. The rapidity of the pulse during work depends not only upon the amount of work done, but much more upon the manner in which it is done. Speed and resistance are factors requiring separate consideration and of these two speed has the greater influence.

These records show that while muscular work may not appreciably require the expenditure of bodily force it immediately reacts upon the heart and that conversely cessation of muscular exertion is an immediate relief to the heart.

View of Happiness.

I have been trying to figure out a general condition of happiness, and I reach the conclusion that it consists mainly in the ability to march with one's own generation, neither deploring the progress the generation makes nor grumbling because it doesn't make more, says Frank Putnam in the National Magazine. We can understand best the men and women of our own age, or near it. Dr. Oiler spoke truth when he said that most men cease to be receptive to new ideas after 40; hence our elders in the 50s and 60s and 70s, say, who have ably guided the affairs of the world during the decades immediately ahead of us will often seem to us to move less rapidly than we think they should, toward new industrial conditions. And the generation immediately behind us—the realists change in their 30s, are putting more pressure upon us from the rear than we are able to believe is wholly justified.

Girl Suffers for Father.

A sixteen-year-old girl, the daughter of a stage manager, failed to obtain admission to a Munich girls' school, because her father's profession is considered "immoral."

FITSPERMANENTLY CURED.

After first day's use of Dr. Kline's Great Nerve Restorer, \$2.00 bottle and treatise free. Dr. R. M. KLINE, L.D., 931 Arch St., Phila., Pa.

Genuine Russian Caviar is one of the most costly commodities.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, etc. a bottle.

Madrid still has the medieval night watchmen.

Do not believe Pilo's Cure for Consumption, rheumatism, neuralgia and colds.—JOHN F. BOYER, Trinity Springs, Ind., Feb. 15, 1903.

The whole coast of the Gulf of California abounds in pearls.

Draws the Poison. Sloan's Liniment, the great antiseptic, draws the poison from mosquito bites and stings of all insects. It kills yellow fever and malaria germs.

The Atlantic Ocean has an average depth of 16,000 feet.

DISFIGURING HUMOR

Brushed Scales From Face Like Powder—Doctor Said Lady Would Be Disfigured For Life—Cuticura Works Wonders.

"I suffered with eczema all over my body. My face was covered; my eyebrows came out. I had tried three doctors, but did not get any better. I then went to another doctor. He thought my face would be marked for life, but my brother-in-law told me to get Cuticura. I washed with Cuticura Soap, applied Cuticura Ointment, and took Cuticura Resolvent as directed. I could brush the scales off my face like powder. Now my face is just as clean as it ever was.—Mrs. Emma White, 641 Cherrier Place, Camden, N. J., April 25, '05."

Drifting sands above her mirage, Happy home beckon her plain. Still her spirit sings and murmurs in Columbia's wild refrain.

—Bert Hoffman in New York Herald

Grace cannot grow by greed.

RAM'S HORN BLASTS

THE one country waits for the one king.

A man can be sweet without being fresh. The joy of service is the secret of joy.

Many who glory in their titles have no titles to glory.

You cannot develop affection without heart athletics.

The world is no better for calling its Father a force.

It takes more than curiosity to make a good neighbor.

The people who shine as the stars think only of the Sun.

Dignity is a good thing in the museum, but only of place in the market.

It is little use coming to your senses unless they send you to your Savior.

A man's duty is not established by the police duty he does in the church.

The world needs your witness as well as your work.

Pardon alone purchases freedom from punishment.

The worst habits, in our opinion, are those for which we have no appetite.

The book of life will be good reading of His Word is on the pages of memory.

There is more of the Heavenly Man there in us the higher will be our manhood.

Limitations lead to liberty. Conceit conceals the Savior. Selfishness destroys serenity. Bigotry blasts many blessings. Love calls no service degrading.

Girl Suffers for Father.
